## ANNUAL CONTINUING REVIEW OF THIS RESEARCH STUDY IS NOT REQUIRED

Revised Common Rule 45CFR46.109(f)(1)

### Investigator's Responsibilities:

1. The informed consent form bearing the IRB approval stamp must be used when recruiting participants into the study.
2. The investigator must notify IRB **immediately** of unexpected adverse reactions, or new information that may alter our perception of the benefit-risk ratio.
3. Study procedures and files are subject to audit any time.
4. Any modifications of the protocol or the informed consent as the study progresses must be reviewed and approved by this committee **prior to being instituted**.
5. This approval applies to the protection of human subjects only. It does not apply to any other university approvals that may be necessary.

**APPROVED**

**By NU IRB at 10:49 am, Jun 10, 2021**

C. Randall Colvin, Ph.D., Chair  
Northeastern University Institutional Review Board

Nan C. Regina, Director  
Human Subject Research Protection
